

Fire It Up: Art Welding
G221037/G2201017
Tom Nichols & David Kadlec

October 8-14; 16 - 22, 2022

Check-In begins at 3:00pm at the Welcome Center on Saturday Oct. 8; Sunday Oct. 16. Check-Out by 10:00am on Friday Oct. 14; Saturday Oct. 22.

COOL TEMPS AND BURNING METAL....ahhh, what a great combo. Welcome to becoming a wretched welder at Ghost Ranch this fall.

For our class, dress in layers wearing long sleeve cotton shirts and pants, closed toed leather shoes, a cap or bandana and a jacket for the chilly mornings. Bring clothes you won't mind getting dirty or burning small holes in. For obvious reasons we don't recommend the use of hair spray, aftershave, perfume, bug spray and other accelerants. People always admire our outfits at every meal.

Your eye and ear protectors, gloves, aprons, Oxy/acetylene and mig welders, plasma cutter, power grinders and steel saws, scrap metals and personal work stations are provided. Bring any gear like leather work gloves that fit properly and metal you desire.

The welding studio is set up in Longhouse near the Box Canyon trail head. This amazing secluded space allows us to be as loud and obnoxious as only welders can be without distractions and it's only a few minutes walk to the dining hall.

For the week of Oct. 8-14, working hours are from 9 to 5 Sunday through Wednesday with breaks for rest and lunch. Thursday we work until midday to finish up our pieces and after lunch clean up the work stations and get ready for the evening art show. After the show, plan to take your art pieces with you unless you have sold them to an admirer.

For the week of Oct. 16-22, working hours are from 9 to 5 Monday through Thursday with breaks for rest and lunch. Friday we work until midday to finish up our pieces and after lunch clean up the work stations and get ready for the evening art show.

Check in at the office when you arrive. We look forward to meeting with you at 6:45 Saturday Oct. 8 or Sunday Oct 16 after dinner briefly for orientation and getting acquainted. You will be ready to 'FIRE IT UP' on Monday morning.

Safe travels, rest comfortably after you arrive and get ready for a great experience surrounded by the incredible, inspiring beauty of Ghost Ranch. Contact us for any questions or concerns.
