## Animated Stained Glass

with Joseph Cavalieri

G24070207

July 7-13, 2024

Thank you for signing up for Joseph Cavalieri's Animated Stained Glass class. We begin this fun week-long class by drawing out a design for a panel, or a series of smaller panels. With Joseph's guidance you will learn how to develop this idea into a full size sketch on paper, choose and cut glass, then copper foil and solder to make a colorful wall hung stained glass panel measuring about ten by ten inches.

Your designs can be based on a favorite cartoon figure, flowers, or even an abstract design. You can be inspired by a favorite theme of past work you would like to continue in glass or an existing stained glass pattern you find online. Simply think about a design that excites you!

All materials are provided. If you have a favorite stained glass tool feel free to bring it to class. Along with your inspirational resources please bring a few sheets of tabloid sized white paper, a pencil and black sharpie pen. No open toe shoes please.

This class is perfect for beginners and students with experience. Joseph will also be presenting a lecture on his work and some of his favorite students' works, and a demonstration on how he frames and lights his painted stained glass art.
