Hello Fellow Creative Soul –

Are you ready to relax in the absolute beauty of the Puebloan homelands in northern New Mexico? While enjoying these beautiful vistas we will be busily cutting, gluing, painting, and embellishing your altered books. I will show you how to create secret hiding places in your book with shadow boxes and tiny drawers to hold your Ghost Ranch treasures and incorporate popups & pockets.

No need to worry about what supplies to bring, I will bring all of your supplies and the book that you will be altering. Please don't wear any clothing that is precious, you are welcome to bring a lightweight kitchen apron.

Whether this is the first time you have created an altered book, or your tenth, I believe you will learn something new.

Get ready to have some fun!

Kay
