Supply List

- A drawing pencil – HB (medium soft) or 2B (soft)
 - A kneaded eraser
 - Paper – Two 9" x 12" Strathmore cold press watercolor paper pads with 12 sheets each (series #300, 140 lb.)
 - Board - One 11" x 14" hardboard panel - available at Blick's (dickblick.com) or you can use a piece of plywood or Plexiglas large enough to tape your 9" x 12" paper on to.
 - Watercolor Paint – one small tube each of student grade Winsor & Newton Cotman brand watercolor paint :
 - Lemon yellow
 - French ultramarine blue
 - Alizarin crimson
 - Brushes- 1 inch wide flat watercolor brush for washes
 - 2 smaller flat brushes varying in size
 - 2 or 3 round brushes varying in size
 - An old tooth brush or a stencil brush
- *You do not have to spend a lot of money on expensive brushes, just make sure they are water color brushes and not meant for oil or acrylic paints. I like bamboo brushes usually coming from Japan or China. They are inexpensive, and you can get a variety of brush marks from them.
- Palette – You will need a water color palette (they come in plastic or metal). It is always a good idea to have extra jar tops, saucers or Tupperware lids for extra puddle mixing.

Welcome
