

## Fused Glass Landscapes

G26070409

With Katrina Jameson

July 26–August 1, 2026

### Welcome to Fused Glass Landscapes!

Transfer your favorite landscape into a beautiful fused glass masterpiece. Cut and layer sheet glass, frit, powders and dichroic glass to add depth and dimension. Build your masterpiece using multiple techniques and multiple firings. We will cover basic glass cutting skills as well as design and composition. Mornings will be spent learning new techniques with open studio time in the afternoons and evenings to put it all together. We will be focusing on fused glass landscapes but will have time to create pendants and other small fused glass objects.

This is a perfect class for beginners as well as those with some fused glass experience, (12 years minimum age).

Because of limited kiln space and time for firing, we will be making small test tile projects sized 4"X 4" and smaller with a larger final project. We will cut and grind fusible glass and add design elements then high temperature fire to

slump, fuse, and finish the glass. We will be using COE 96 compatible glass in sheet, frit, powder, stringer, dichroic and specialty glasses.

What will be available? Ghost Ranch has all the basic tools, glass, findings and all of the consumable supplies that you will need to make multiple projects during the week. Your registration fee includes \$60 worth of glass and findings. Additional findings, premium glass, advanced projects and supplies to continue your glass fusing at home will be available for purchase from the instructor.

What to bring? Closed toe shoes are required at all times in the studio. If you have favorite glass cutting tools, please bring them. Landscape photos for individual studies.

What will the class schedule be? Classes will start at 9:00am and go until late afternoon. Most instruction and demonstration will happen in the mornings. Open studio in the evenings. The large kiln will be loaded by 4:30pm each day and will be unloaded the next morning. There will be a final firing on Thursday night. Friday will be reserved for finishing pieces and setting up for the final gallery show on Friday night.

About the Instructor: Looking for a new creative outlet, Katrina attended the Ghost Ranch, Abiquiu, New Mexico class "Fused Glass is Hot!" with Olive Smith. She fell in love with glass as an art medium. She creates one of a kind jewelry and art pieces with fusible art glass and dichroic glass as well as recycled window and bottle glass with unique inclusions as well as silver and semi-precious stones.

Katrina teaches Fused Glass and Silversmithing at Ghost Ranch. Her art can be found at Dominique Boisjoli Fine Art on Canyon Road in Santa Fe, New Mexico.

Katrina can be reached at [MariposaTreasures@gmail.com](mailto:MariposaTreasures@gmail.com) or at 970-335-9733.

#### Workshop Itinerary:

Classes will start at 9:00am and go until late afternoon. Most instruction and demonstration will happen in the mornings. Open studio in the evenings. The large kiln will be loaded by 4:30pm each day and will be unloaded the next morning. There will be a final firing on Thursday night. Friday will be reserved for finishing pieces and setting up for the final gallery show on Friday night.
